

How To - Batch uploading to a VC controller

Batch loading to a VC controller in VantagePoint Software

After adding your cardholder to VantagePoint software its always a good idea to perform a batch upload to all controllers.

1. At the VantagePoint main screen click the **Device Info. Management** tile

2. At the **Device Info. Management** window:
 - Highlight the controllers you wish to batch upload to [1]
 - Select the **System Functions** tab [2]
 - Click the **Device Information** radio button [3]
 - Ensure from the **Controller List** all controllers to be batch uploaded to have a tick in their check box [4]
 - Click the **Upload** button [5]
