	~								
File name:	Guard	PointPro_27Jun2016-13.27.59.mdb							~
Save as type: Database files (*.mdb)									
Aide Folders							Save	Cance	

you can either save a copy to the default location 'Backups' inside the GPP installation folder or browse to a location you prefer like usb thumb drive.

Click Save, the Database backup has now been saved

To Save the Journal repeat the process above clicking on 'Save Journal' instead of Save Database

# Backing up and restoring the Database and journal

### **Restoring the database**

1. in GPP application go to the Tools menu> Click on Restore Database

you will see a window pop up to the default backup folder.
