EB-2 & EB-4
Exit Buttons

The EB-2 and EB-4 exit buttons are a robust practical exit button suitable for most installations.

Key Features

- Narrow or Single Gang size
- Vandal resistant stainless steel
- Flush mount or Surface mount

The stainless steel front is ideal for applications when vandalism may be a problem. The exit button comes in 2 sizes, single gang and narrow. The Exit buttons come complete with a back box for surface mounting however they can also be flush mounted.

The exit buttons have been designed to comply with Risk Assessment RA001 and EN50133/Industry Codes of Practice. They also comply with health & safety regulations.

Technical Specification

Contacts	Double Pole NO/NC
Operations	Up to 1 million
IP Rating	IP66

Physical

EB-2 (S/Steel Plate) 85 (H) x 85 (W) mm
EB-4 (S/Steel Plate) 85 (H) x 39 (W) mm

Electrical

Voltage	up to 30v DC/AC
Current at 30v AC/DC	4A

Part Number

EB-2   Surface or Flush mount, vandal resistant, stainless steel exit button, comes with back box

EB-4   Surface or Flush mount, narrow style, vandal resistant, stainless steel exit button, comes with back box
